## T001

Installation template for horizontal trim  
Gabarit d'installation pour moulure horizontale

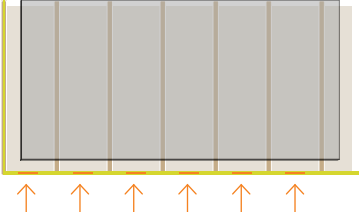

### Technical specifications

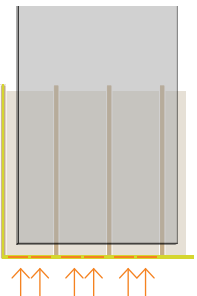

Tool to assist in the installation of fiber cement panels on horizontal trims. This tool is used as a guide to maintain the 1/4" spacing between the panel and the trim during installation. It enables you to comply with the installation standards recommended by the manufacturers and to maintain the general symmetry of the project. Exclusively designed for trims H001, H001XL, H100, H002, H760XL and S002.

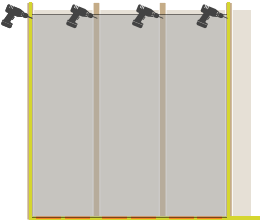

### Spécifications techniques

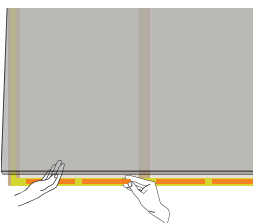

Outil pour aider à l'installation des panneaux en fibrociment sur les moulures horizontales. Cet outil sert de guide pour respecter la distance de 1/4 po de dégagement entre le panneau et la moulure horizontale lors de l'installation. Permet de respecter les normes d'installation recommandées par les fabricants et préserver la symétrie générale du projet. Exclusivement conçu pour les moulures H001, H001XL, H100, H002, H760XL and S002.

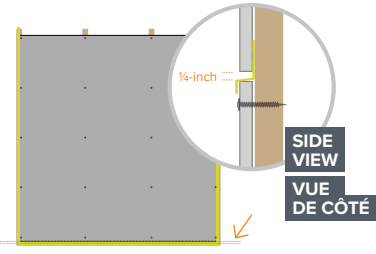

### User Manual • Guide d'installation

- 

For **horizontal** panels, place a template on the trim between each lath (every 16 inches).  
Pour les panneaux **à l'horizontal**, placer un gabarit sur la moulure Light Trim entre chaque latte (aux 16 pouces).
- 

For **vertical** panels, place two templates between each lath.  
Pour les panneaux utilisés **à la verticale**, placer 2 gabarits entre chaque latte.
- 

Screw top of panel.  
Visser le haut du panneau.
- 

To remove the templates, gently pull on the panel.  
Tirer légèrement le panneau pour retirer les gabarits.
- 

Complete screwing.  
1/4-inch spacing between the panel and the horizontal trim is perfectly maintained.  
Compléter le vissage.  
L'espace de 1/4 po de dégagement entre le panneau et la moulure horizontale Light Trim est parfaitement respecté.

Recommended for fiber cement panel with **CLIPi** vertical trim installation (J002, J109, J760XL, C004XL, V920, V099, V199, C994 and V299XL).

Recommandé pour l'installation de panneaux en fibrociment avec les moulures de fixation verticales **CLIPi** (J002, J109, J760XL, C004XL, V920, V099, V199, C994 et V299XL).
